QUESTION 4

In the event of a disk failure, which RAID level enables quick data reconstruction?

- A. RAID 3
- B. RAID 5
- C. RAID 6
- D. RAID 10

Correct Answer: C

QUESTION 5

What is determined by the amount of space configured for the journal in continuous data protection (CDP) replication?

- A. Length of time required to recover the data
- B. Length of time the recovery points can go back
- C. Amount of data that can be restored to a specific point
- D. Amount of space the source and replica volumes require

Correct Answer: D
