- D. SRDF mode will change to Adaptive Copy Disk

Correct Answer: C

---

### QUESTION 2

Which PowerMax software packages include NonDisruptive Migration?

- A. FX and Pro
- B. Essentials and Pro
- C. F and FX
- D. F and Essentials

Correct Answer: A

---

### QUESTION 3

DRAG DROP

What is the correct sequence of steps to obtain PowerMax licenses and ensure the PowerMax is configured to allow the licensed features to work properly?

Select and Place:

Entitled user loads the license file to the PowerMax and verifies that all licenses were successfully activated	STEP 1
Order the software licenses for the required features	STEP 2
Company retrieves the License Authorization Code and downloads the license file from Dell Technologies	STEP 3
Dell Technologies generates the single license file for the PowerMax and makes it available for download	STEP 4
Dell Technologies sends a License Authorization Code to the company with instructions on how to download the single license file	STEP 5

Correct Answer:

	Entitled user loads the license file to the PowerMax and verifies that all licenses were successfully activated
	Order the software licenses for the required features
	Dell Technologies generates the single license file for the PowerMax and makes it available for download
	Company retrieves the License Authorization Code and downloads the license file from Dell Technologies
	Dell Technologies sends a License Authorization Code to the company with instructions on how to download the single license file

#### QUESTION 4

DRAG DROP

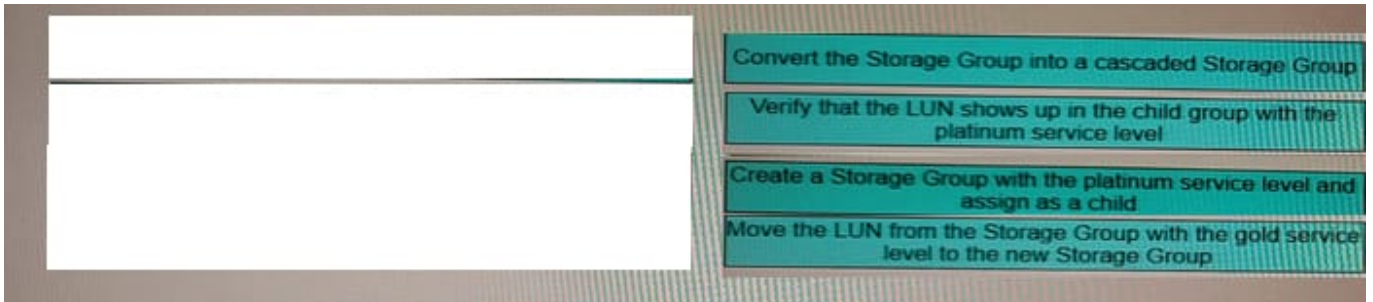

A host has LUNs assigned through a Masking View containing one regular Storage Group The Storage Group has the gold service level assigned One LUN requires a higher service level What is the correct sequence of steps required to assign the platinum service level to that LUN?

Select and Place:

Create a Storage Group with the platinum service level and assign as a child	STEP 1
Convert the Storage Group into a cascaded Storage Group	STEP 2
Verify that the LUN shows up in the child group with the platinum service level	STEP 3
Move the LUN from the Storage Group with the gold service level to the new Storage Group	STEP 4

Correct Answer:

### QUESTION 5

What is a recommendation when using Open Replicator to migrate data from a supported third-party array to a VMAX3 array?

- A. Host I/O to the control devices on the VMAX3 array is allowed after the migration completes
- B. Control devices on the VMAX3 array must be set to Not Ready for the duration of the migration
- C. Host I/O to the remote devices on the third-party array can continue during the migration
- D. Host I/O to the remote devices on the third-party array should be stopped for the duration of the migration

Correct Answer: D
