Following Questions and Answers are all new published by Salesforce Official Exam Center

QUESTION 1

Custom objects on the "detail" side of a master-detail relationship cannot have sharing rules.

A. False

B. True

Correct Answer: A

The Owner field on the detail object is not available and is automatically set to the owner of its associated master record. Custom objects on the detail side of a master-detail relationship cannot have sharing rules, manual sharing, or queues, as these require the Owner field.

QUESTION 2

Universal Containers provides access to Salesforce for their sales, service and marketing teams. Management wants to ensure that when users log in, their home tab provides access to links and documentation that are specifically relevant to their job function.

How can this requirement be met?

A. Create separate home page custom components and layouts; assign to users by role.

B. Create separate home page custom components and layouts; assign to users by profile.

C. Expose specific elements within a home page custom component determined by role.

D. Expose specific elements within a home page custom components determined by profile.

Correct Answer: B

QUESTION 3

For an external object relationship, you can create a lookup relationship.

What type of object(s) can be the parent?

A. External

B. Standard or Custom

C. Standard or External

D. Custom

Correct Answer: B

Explanation: For a lookup you can only have standard or custom objects as the parent, but can have all 3 as the child.

QUESTION 4

As an account\\'s expiration approaches, send recurring e-mail notifications to the owner (2 weeks before, 1 week before, 3 days before, and 1 day before).

Which tool would you use for the following use case?

A. Process builder

B. Flow

C. Workflow

D. Approvals

Correct Answer: C

QUESTION 5

You can have multiple records with the same external ID.

A. True

B. False

Correct Answer: A

Explanation: It is not recommended, as it will defeat the purpose of the external id.
