**QUESTION 1**

Which statement is true regarding changing views or pages in the D2 interface?

- A. DOM is manipulated to avoid page changes or client JavaScript reload.
- B. Users must navigate pages to switch views.
- C. Client JavaScript reload is required for users to change pages.
- D. DOM is manipulated to avoid page changes, but client JavaScript reload is required.

Correct Answer: A

QUESTION 2

A user wants to search for a document whose subject is set to "server" or "Server". Which DQL query will do this?

- A. `select object_name from dm_document where lower(subject) = \'server\'`
- B. `select object_name from dm_document where subject like \'%erver\'`
- C. `select object_name from dm_document where subject like \'?erver\'`
- D. `select object_name from dm_document where lower(subject) = \'Server\'`

Correct Answer: A

QUESTION 3

How does indexing latency in xPlore affect repository searches?

- A. The Content Server must be restarted to detect indexing modifications.
- B. Searching for objects based on object property values that were changed or removed is not possible until the Index Server re-indexes the object.
- C. Searching can be performed immediately on an indexed object using changed or updated information.
- D. Searching changed metadata is available for modified documents but changed content is only searchable after the content is re-indexed.

Correct Answer: B

QUESTION 4

In a Documentum environment, how is it apparent to a user that Microsoft Office integrations are enabled on their machine?

- A. The user is restricted to using only Microsoft Office formats when creating new documents.
- B. A Microsoft logo appears in the upper-right corner of the Webtop home page.
- C. A Documentum menu option displays when the user opens Microsoft Word.
- D. A Microsoft Office menu option displays when the user logs in to Webtop.

Correct Answer: C

QUESTION 5

Which statement is true regarding the deletion of a document from the Documentum repository?

- A. If the user has Write permission they will be able to delete the properties and leave the content in the repository.
- B. If the user has Delete permission they will be able to edit or view the document.
- C. If the user has Write permission they will be able to delete the content and leave the properties in the repository.
- D. If the user has Delete permission they will be able to delete the content and leave the properties in the repository.

Correct Answer: B
