QUESTION 1

What is a recommendation when using Open Replicator to migrate data from a supported third-party array to a VMAX3 array?

A. Host I/O to the control devices on the VMAX3 array is allowed after the migration completes

B. Host I/O to the remote devices on the third-party array can continue during the migration

C. Control devices on the VMAX3 array must be set to Not Ready for the duration of the migration

D. Host I/O to the remote devices on the third-party array should be stopped for the duration of the migration

Correct Answer: C

QUESTION 2

What is the function of FAST hinting on a VMAX3 array?

A. Sends hints to the array for low access data to be compressed

B. Provides suggestions for manual movement of data to other tiers

C. Provides suggestions for data migration activities to be performed on stale data

D. Sends hints to the array for data that is likely to be accessed in a given period of time

Correct Answer: D
