- C. Disk Group, Data Pool, and thin device sub-LUN
- D. Disk, Data Pool, and Storage Resource Pool

Correct Answer: A

---

### QUESTION 3

DRAG DROP

What is the correct sequence of steps to obtain VMAX licenses and ensure the VMAX is configured to allow these features to work properly?

Select and Place:

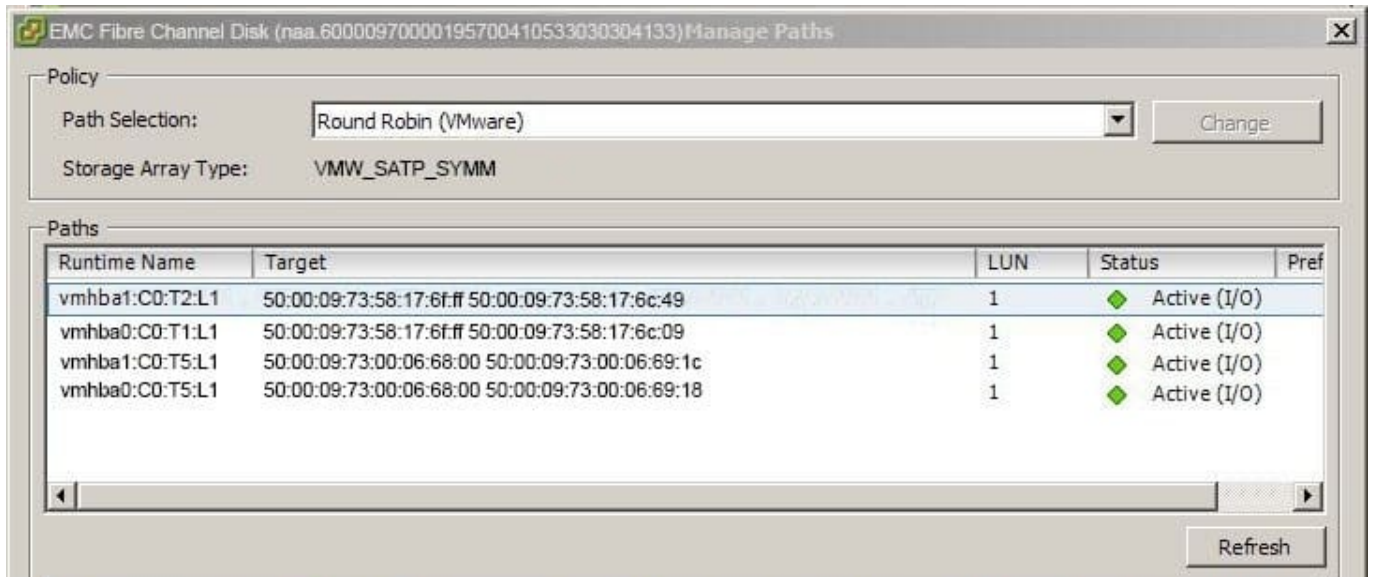

Entitled user loads the license file to the VMAX and verifies that all licenses were successfully activated.	STEP 1
Order the software licenses for the required features.	STEP 2
Customer retrieves the License Authorization Code and downloads the license file from EMC.	STEP 3
EMC generates the single license file for the VMAX and makes available for download.	STEP 4
EMC sends a License Authorization Code to the customer with instructions on how to download the single license file.	STEP 5

Correct Answer:

	Order the software licenses for the required features.
	EMC generates the single license file for the VMAX and makes available for download.
	EMC sends a License Authorization Code to the customer with instructions on how to download the single license file.
	Customer retrieves the License Authorization Code and downloads the license file from EMC.
	Entitled user loads the license file to the VMAX and verifies that all licenses were successfully activated.
