QUESTION 1

A customer implemented an EMC Centera and performed acceptance testing by writing 4 TB of data to the EMC Centera. After acceptance testing is complete the customer successfully issued delete calls to all the data. The next day the customer observes that the free space on the EMC Centera has NOT significantly changed after the deletion.

How is this possible?

A. A purge command must be issued to reclaim the space

B. Garbage collection has not yet swept the data

C. Reflections have consumed the space

D. Retention has been set

Correct Answer: B

QUESTION 2

Which types of applications are a good fit for CAS?

A. E-mail archiving
