QUESTION 1

A customer is evaluating the deployment of RecoverPoint with their VMAX array. They want to deploy the RPAs in the virtual appliance form. They ask your opinion about using vRPA versus physical appliances.

What should you advise them?

A. They can only use physical RPAs in the current environment.

B. For performance reasons, they can mix vRPAs and physical RPAs in the same RPA cluster, but only at remote sites.

C. For performance reasons, they cannot mix physical and vRPAs within an RPA cluster.

D. They can mix vRPA and physical RPAs in the same RPA cluster at all sites.

Correct Answer: A

QUESTION 2

Which type of Consistency Group requires a primary and secondary production copy?

A. MetroPoint

B. Synchronous

C. Distributed

D. Asynchronous

Correct Answer: A

QUESTION 3

Which RecoverPoint tool is used for system conversions?

C. SolVe Desktop

D. BCSD Sizing

Correct Answer: A

QUESTION 4

A company believes their WAN IP network has performance problems. Which IP diagnostic tool can be used to confirm this issue?

A. Test Throughput

B. Port diagnostics

C. Full mesh network test

D. View Routing Table

Correct Answer: C

QUESTION 5

An existing environment is replicating using RecoverPoint/CL. A new VPLEX has just been installed and the VPLEX splitter has been added to the RecoverPoint configuration. The administrator can see the VPLEX splitter in Unisphere for RecoverPoint but cannot obtain management, installation, and integration information about volume types.

What could cause this issue?

A. RecoverPoint and VPLEX certificates have not been exchanged.

B. The VPLEX certificate has expired.

C. VPLEX splitter is only compatible with RecoverPoint/EX.

D. RPAs have not been added to a Storage View.

Correct Answer: A
