QUESTION 1

What problem would you have when enabling the following SBO method as a web service?

A. You cannot use an array as return types for a web service.

B. You cannot instantiate a DfClientX object in an SBO web service.

C. The call to getSession will always return null when called from within an SBO webservice.

D. An IDfSysObject cannot be passed as an argument to a web service.

Correct Answer: D

QUESTION 2

You have created a custom administrative application that supports acl administration by non-sysadmin or superusers. You want to implement dynamic groups to model this feature. You create a group object, named "LocalAdmins," set is_dynamic=T, and set is_dynamic_default = F, which treats users as non-members of the group. What should your application do to take advantage of the "LocalAdmins" dynamic group?

A. do nothing else

B. execute IDfSession.removeDynamicGroup("LocalAdmins");

C. execute IDfSession.addDynamicGroup("LocalAdmins");

D. add all applicable users to "LocalAdmins" upon session creation and remove allapplicable users from "LocalAdmins" upon session release

Correct Answer: C

QUESTION 3

Which specific object type in the repository does the IDfTypedObject interface represent?

A. dm_dd_info

B. dmi_dd_type_info

C. dm_type

D. none

Correct Answer: D

QUESTION 4

Which SBO method signature is valid for conversion to a web service?

A. void setKeyword(IDfSysObject obj, int index, String value)

B. boolean uploadConfiguration(java.io.File myFile)

C. boolean setKeyword(IDfSysObject obj, int index, String value)

D. int countDocuments(IDfSession sess, String qualification)

Correct Answer: B

QUESTION 5

Given the following code: IMyService1.createFolder() and IMyService2.createDocuments() perform steps that can be aborted if in a transaction. Which statement is true?

A. When createDocuments()method throws an exception, both createFolder() andcreateDocuments() methods are aborted.

B. When createDocuments() method throws an exception, only createDocuments() method isaborted.

C. When createDocuments() method throws an exception,sessionManager.abortTransaction()throws a DfException set to DM_DFC_E_INVALID_OPER_ON_MANAGED_SESSION.

D. SBOs do not participate in transactions.

Correct Answer: A
