QUESTION 1

Which user account will be used when running the Repository Configuration program?

A. superuser

B. installation owner

C. web user

D. database user

Correct Answer: B

QUESTION 2

You have many users to add to a content repository. How can you create multiple users in batch mode?

A. create a text file with the user values in LDAP Interchange Format and use DocumentumAdministrator to import the file

B. create dynamic groups for the users in Documentum Administrator

C. use drag-and-drop to copy a group of current users to a new group and let the values be inherited

D. create a text file with the user values separated by commas and use Documentum Administrator to import the file

Correct Answer: A

QUESTION 3

In a distributed configuration environment, you are asked to configure content pre-caching to reduce the amount of time it takes for remote users to access frequently-used content. Which of these must be installed and correctly configured in order for content pre-caching to work?

A. Site Caching Services (SCS)

B. Content Intelligence Services (CIS)

C. File Transfer Protocol (FTP) Services

D. Documentum Messaging Server (DMS)

Correct Answer: D

QUESTION 4

Users complain that it takes several seconds to get the result for DQL queries on dm_document searching for keywords. Your database administrator says that the disk I/O rate on the database machine is consistently high and no other

change can be made to the database hardware. The database and Content Server run on separate hosts. How could you solve this problem on the Content Server?

A. add more or faster CPUs on the Content Server machine

B. create a selective database index against the dmr_content_s table

C. create a database index on the keywords column of the dm_sysobject_r table

D. buy faster disks for storing the Documentum content

Correct Answer: C

QUESTION 5

Which method argument controls the agent_exec_method process polling interval?

A. database_refresh_interval

B. override_sleep_duration

C. window_interval

D. poll_interval

Correct Answer: B
