**QUESTION 1**

Several departments have processes that submit documents to an external agency using the same web service.

According to EMC best practices, which design approach should an application developer use to allow simple creation of BAM reports on the number of web service submissions made?

- A. Generate a common workflow method that is called by each of the departmental processes.
- B. Configure Dynamic Web Service activities in each departmental process that update a process variable with the same name.
- C. Include a DQL Write activity in the departmental processes that updates a counter record.
- D. Create a sub process that invokes the web service.

Correct Answer: D

QUESTION 2

An application developer needs to re-use an activity in which input parameters differ across processes. How should the application developer accomplish this?

- A. by using an existing activity, then adding process parameters in the process properties Data tab
- B. by creating a new structured data type, then adding the input parameters to any activities in the process
- C. by creating a custom activity template, then defining the input parameters under the Properties tab
- D. by creating a custom activity template, then defining the input parameters under the Definition tab

Correct Answer: D

QUESTION 3

An insurance claims system process requires a user to upload an investigation report. Aside from the activity in which the document is uploaded, no other activity should have access to the document.

How can the application developer ensure that this business rule has been enforced by the process?

- A. In the Activity Inspector Data tab check the Mandatory Package box and uncheck the Visible Across Entire Process box.
- B. In the Process Properties check the Mandatory Package box and uncheck the Visible Across Entire Process box.
- C. In the Process Properties uncheck the Visible Across Entire Process box and on the Activity Inspector Data tab check the Visible at this activity box and the Mandatory Package box.
- D. In the Activity Inspector Data tab check the Visible at this activity box and the Mandatory Package box.

Correct Answer: C

QUESTION 4

Which component is responsible for executing outbound data/messaging activity templates from the Process Integrator?

- A. Business Process Server
- B. SMTP Server
- C. Content Server
- D. Java Method Server

Correct Answer: D

QUESTION 5

Where can an application developer enable tracing for Composer to monitor building or importing a project?

- A. dfc.properties
- B. log4j.properties
- C. Eclipse preferences
- D. composer.properties

Correct Answer: C
