QUESTION 1

Which of the following types of encryption would BEST protect a laptop computer in the event of theft?

A. Disk

B. Email

C. VPN

D. HTTPS

Correct Answer: A

QUESTION 2

A computer with a single purpose receives input from a controller. Which of the following types of devices is this computer?

A. Tablet

B. Server

C. Gaming console

D. Workstation

Correct Answer: C

A computer that has a single purpose, like gaming, and receives input from a controller is typically a gaming console. Gaming consoles are designed specifically for gaming and entertainment, and they often have specialized hardware and software optimized for gaming experiences. They are different from general-purpose computers like workstations or servers, which can perform a wide range of tasks.

QUESTION 3

Which of the following is an example of structured data?

A. Video recordings

B. Social media posts

C. Photographs

D. Phone numbers

Correct Answer: D

QUESTION 4

A user is buying a laptop. The user will have a lot of personal and confidential information on the laptop. The user wants to ensure data cannot be accessed by anyone, even if the laptop is stolen. Which of the following should be set up to accomplish this?

A. Encryption

B. Compression

C. Permissions

D. Auditing

Correct Answer: A

Encryption is a process by which a message , file or data is encoded such that it is only read by certain people who have permissions.

QUESTION 5

Ann, a user, is experiencing difficulty getting her IP-based security camera to function at her house after a rain storm that caused a power interruption. The camera has an LED light indicating it has power. Which of the following is MOST likely the problem?

A. The power interruption caused the camera to malfunction.

B. Ann has a compatibility problem with the camera.

C. A firmware update needs to be applied to the camera.

D. Ann\\\'s Internet connection and wireless router are still down.

Correct Answer: D

lightning could cause the wireless adapter to short out just because it has power does not mean wireless is working
