**QUESTION 1**

Which of the following Acts enacted in United States allows the FBI to issue National Security Letters (NSLs) to Internet service providers (ISPs) ordering them to disclose records about their customers?

- A. Wiretap Act
- B. Computer Fraud and Abuse Act
- C. Economic Espionage Act of 1996
- D. Electronic Communications Privacy Act of 1986

Correct Answer: D

QUESTION 2

You work as a Network Administrator for Net Perfect Inc. The company has a Windows Server 2008 network environment. The network is configured as a Windows Active Directory-based single forest single domain network. The network is configured on IP version 6 protocol. All the computers on the network are connected to a switch device. One day, users complain that they are unable to connect to a file server. You try to ping the client computers from the server, but the pinging fails. You try to ping the server's own loopback address, but it fails to ping. You restart the server, but the problem persists.

What is the most likely cause?

- A. The cable that connects the server to the switch is broken.
- B. Automatic IP addressing is not working.
- C. The switch device is not working.
- D. The server is configured with unspecified IP address.
- E. The server's NIC is not working.

Correct Answer: E

QUESTION 3

Peter works as a Security Administrator for SecureEnet Inc. He observes that the database server of the company has been compromised and the data is stolen. Peter immediately wants to report this crime to the law enforcement authorities. Which of the following organizations looks after the computer crimes investigations in the United States?

- A. Federal Bureau of Investigation
- B. Local or National office of the US secret service
- C. Incident response team
- D. National Institute of Standards and Technology

Correct Answer: B

QUESTION 4

Which of the following statements about the HKEY_LOCAL_MACHINE registry hive is true?

- A. It contains the user profile for the user who is currently logged on to the computer.
- B. It contains information about the local computer system, including hardware and operating system data, such as bus type, system memory, device drivers, and startup control parameters.
- C. It contains configuration data for the current hardware profile.
- D. It contains data that associates file types with programs and configuration data for COM objects, Visual Basic programs, or other automation.

Correct Answer: B

QUESTION 5

Which of the following IP addresses are private addresses?

Each correct answer represents a complete solution. Choose all that apply.

- A. 19.3.22.17
- B. 192.168.15.2
- C. 192.166.54.32
- D. 10.0.0.3

Correct Answer: BD
