

H13-511_V4.0^{Q&As}

HCIA Cloud Computing V4.0

Pass Huawei H13-511_V4.0 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

https://www.pass4itsure.com/h13-511_v4-0.html

100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by Huawei
Official Exam Center

- ⚙️ **Instant Download** After Purchase
- ⚙️ **100% Money Back** Guarantee
- ⚙️ **365 Days** Free Update
- ⚙️ **800,000+** Satisfied Customers

QUESTION 1

The following option is not an element of artificial intelligence is

- A. Computing power
- B. Perceptual analysis
- C. Big data
- D. Scenario

Correct Answer: B

QUESTION 2

In the OpenStack solution, which module does the load provide for persistent block storage?

- A. Swift // Object Storage
- B. Glance /// Quick storage
- C. Nova // Compute node life cycle
- D. Cinder

Correct Answer: D

QUESTION 3

Virtual machine live migration refers to moving virtual machines in the same cluster from one physical server to another physical server in the state of a virtual machine.

- A. True
- B. False

Correct Answer: B

QUESTION 4

In Huawei fusion compute, all virtual machine NICs that join the same security group use this security group filtering. To improve security, you need to add the same network card to multiple security groups. B // A network card is only assigned to one security group

- A. TURE
- B. FALSE

Correct Answer: B

QUESTION 5

What is included in the virtual NUMA (multiple choice)

- A. Load balancing, considering the node correlation during the scheduling process, and the corresponding relationship between the node and the physical node, to ensure the VCPU access to local content to the greatest extent
- B. Place the site, check the NUMA topology of the virtual machine, and select the physical node mode VCPU and memory, so the relationship between VCPU and memory in nide has always been physical.
- C. The topology is displayed.The NUMA is recognized in the temporal part of the virtual machine. The guestOS and the NUMA optimization function take effect.
- D. Dynamic migration, when the affinity between the VCPU and the physical node changes, trigger the migration of its corresponding Vnode memory

Correct Answer: ABCD
