### QUESTION 1

Which two are needed to perform a HCP upgrade? (Choose two.)

- A. PuTTY
- B. system management console
- C. SSH keys
- D. administrator password

Correct Answer: AC

---

### QUESTION 2

What is the correct combination of HBA parameter settings for a HCP 500 SAN implementation?

- A. boot BIOS enabled, topology set to fabric point-to-point
- B. boot BIOS disabled, topology set to fabric point-to-point
- C. boot BIOS enabled, topology set to FC-AL
- D. boot BIOS disabled, topology set to FC-AL

Correct Answer: A

---

### QUESTION 3

How should the RAID group(s) and logical volume(s) be configured on a HCP 300 node?

- A. three RAID groups each with three logical volumes
- B. three RAID groups each with a single logical volume
- C. a single RAID group with a single logical volume
- D. a single RAID group with three logical volumes

Correct Answer: D

---

### QUESTION 4

You are establishing a replication link between two HCP platforms. You set the performance level as part of the configuration options. What does this setting indicate?

- A. the server priority rate for nodes associated with that replication link

- B. the amount of bandwidth made available for replication on the link
- C. the number of concurrent replication operations that can occur on each node
- D. the data transfer rate associated with each tenant namespace

Correct Answer: C

---

#### QUESTION 5

A customer wants to use version pruning for both a primary HCP and its replica; The customer wants to know if they can choose to keep versions for ten days in the namespace on the primary system and two years in the namespace on the replica; Which two statements are correct? (Choose two.)

- A. Different version pruning settings are allowed for primary and replica;
- B. The version pruning settings must be identical for both primary and replica;
- C. HCP always ensures that old versions needed for the replica are replicated before pruning them on the primary system.
- D. HCP always prunes old versions on the primary system.

Correct Answer: AC
