**QUESTION 1**

A company's finance and legal departments do not share any data and should not be able to

access each other's data; The legal department only accesses data using an application that is integrated with HCP using REST. The finance department requires users to be able to browse data using Windows Explorer. What do you tell the customer?

- A. The finance department should be setup as the default namespace and the legal department should have their own namespace.
- B. The finance and legal departments should use the default namespace.
- C. The finance department should have their own namespace and the legal department should use the default namespace.
- D. The finance and legal departments should use different directories in a single namespace.

Correct Answer: A

QUESTION 2

You are implementing encryption in a new HCP installation and the customer has asked about the overall performance impact resulting from the use of the encryption feature. What is the impact when compared to a similar unencrypted solution?

- A. It is not measurable.
- B. It is 10% to 20%.
- C. It is 40% to 50%.
- D. It is less than 10%.

Correct Answer: B

QUESTION 3

During installation, you configured the NTP option as internal. Post installation, the customer instructs you to configure the NTP option with external servers. The HCP internal clock is currently more than 20 minutes out of sync with the current time. What will happen when you configure NTP with external servers?

- A. The next time the HCP is restarted, the current time will be changed.
- B. The current time will be set then HCP will restart.
- C. The current time will be set and HCP will not restart.
- D. Any search nodes in the HCP will re-index all their data;

Correct Answer: B

QUESTION 4

A customer recently acquired a HCP 500. They want to setup storage host groups in this format: HCP2_R2_U20_A as recommended by HDS. Which three storage host group naming conventions apply? (Choose three.)

- A. HCP2 - namespace
- B. U20 - unit number
- C. R2 - rack number
- D. R2 - destination
- E. A- path

Correct Answer: BCE

QUESTION 5

A customer has a HCP that is becoming full. They wrote data with a four week retention period and have not written any data in the last six months. They want to enable the disposition service. What will happen?

- A. Disposition would delete every object in the default namespace.
- B. Disposition would delete every object.
- C. Disposition would not delete any object.
- D. Disposition would duplicate every object in the default namespace.

Correct Answer: B
