QUESTION 1

A Salesforce administrator is migrating a Service Cloud org to Health Cloud and is considering using the Health Cloud Provider data model. Which approach should the administrator take if the Custom Provider Search Lightning component is to be used?

- A. The Provider data model is required for all Service Cloud to Health Cloud migrations, but either the standard or custom search components may be used.
- B. If the Provider data model is used, the standard Health Cloud Provider Search component must be used or extended. Custom search components are not supported.
- C. The current data model with the existing component can be used as well as the Provider data model with either custom search component or the Health Cloud Provider Search component.
- D. The Standard Health Cloud Provider Search component can be used to search either the Health Cloud Provider data model or a custom Provider data model.
