**QUESTION 1**

You are deploying CloudSystem Foundation to your customer's environment. The customer wants to access their deployed instances by using Floating IP addresses. On which network type do the Floating IP addresses reside?

- A. Deployment Network
- B. Provider Network
- C. External Network
- D. Private Network

Correct Answer: D

QUESTION 2

What is one key competitive advantage of HP over Cisco in the private and hybrid cloud market?

- A. HP offers stronger, less confusing management solutions and more public cloud choices for hybrid solutions.
- B. HP and Cisco both integrate OpenStack at the same level but Cisco lacks strong partners.
- C. HP is based on stronger proprietary code than the open source code used in the Cisco solution.
- D. HP is relatively more expensive than Cisco but provides quicker return on investment

Correct Answer: A

QUESTION 3

A customer uses Windows, Linux, VMware, and Hyper-V platforms to host their business applications. Their management wants them to adopt cloud computing that offers full lifecycle management. Which function of HP CloudSystem Enterprise makes it an appropriate solution for this environment?

- A. The ability to migrate any physical workload to any hypervisor host
- B. The ability to deliver advanced infrastructure and application services within minutes
- C. The ability to extend the platform into a public cloud
- D. The ability to ensure patch compliance

Correct Answer: B

QUESTION 4

What is a valid HP Cloud Service Automation deployment best practice?

- A. install HP SiteScope on the HP Operations Orchestration server
- B. install vCentre before you install HP Cloud Service Automation
