-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

### QUESTION 1

Which situation prevents you from using SmartStart to install an HP 3PAR StoreServ 7000 system at a customer site?

- A. DHCP is not running in the customer environment
- B. The customer will not allow remote access of the Service Processor
- C. The controller nodes and the service processor are connected to the same network.

- D. All the customer servers are running Windows 2008 R2.

Correct Answer: D

---

### QUESTION 2

Which zoning rule must be followed to implement Remote Copy over Fibre Channel?

- A. Every FC port used for Remote Copy should be zoned with the hosts whose LUNs are replicating.
- B. All FC ports on odd nodes should be zoned with the FC ports on the even remote node.
- C. A Remote Copy FC port should be zoned to only one other Remote Copy FC port on another system.
- D. All Remote Copy FC ports in a storage server should be placed in the same zone.

Correct Answer: D

---

### QUESTION 3

What is an advantage of Cache persistence?

- A. It eliminates the performance penalties associated with traditional arrays and Write-through mode by maintaining required service levels even in the event of a controller-node failure or upgrade
- B. It increases performance and resilience because it is automatically enabled during bus; workloads
- C. It ensures that when a controller node is placed into Cache Write-through mode, the node will dynamically form a mirrored cache relationship with another storage controller node
- D. In the event of a partner-node failure, it allows a node to mirror the write data to all nodes that do not have direct access to the drives

Correct Answer: A

#### QUESTION 4

Which statement is correct about using the Guided Maintenance (GM) scripts on an HP 3PAR StoreServ system?

- A. The GM scripts have to be run on a 3PARsvc to replace the drive chassis midplane.
- B. The Service Processor and node clock battery cannot be removed and replaced by using the GM scripts.
- C. The GM scripts have to be run on a 3PARsvc to replace the Service Processor.
- D. The Controller Node and drive cage cannot be removed and replaced by using the GM scripts.

Correct Answer: D

---

#### QUESTION 5

Which statements are true about installing drives into a base HP 3PAR F-Class system? (Select two.)

- A. With mixed drive types, the minimum number of drives for any drive type is 4
- B. A minimum of 8 disks must be added into a single drive chassis,
- C. All drives in a vertical column must be of the same speed and type
- D. All drives in a drive chassis must be the same type,
- E. The minimum number of drives per F-Class system is 16.

Correct Answer: CE
