**QUESTION 1**

What does HP Systinet provide to all the stakeholders for composite applications? (Select three.)

- A. Control
- B. Visibility
- C. Reliability
- D. Availability
- E. Predictability
- F. Trust

Correct Answer: BDE

QUESTION 2

Which statement best describes the licensing model used in HP ALM security solutions?

- A. HP Software Security Center solutions use a "High-water mark of past use" license model where usage fees are calculated based on the maximum number of concurrent users in a defined past time period (typically monthly).
- B. All HP Software Security Center solutions are server-based and use a concurrent user network licensing model.
- C. HP Software Security Center solutions support a variety of flexible licensing options, including single "named" user, node-locked and concurrent "floating" user licenses, which are valid for a fixed period and annually renewable.
- D. HP Software Security Center solutions use pay-per-use license fees and are based on actual usage.

Correct Answer: B

QUESTION 3

Which statement is based on initial customer case studies to describe the benefits of HP ALM?

- A. This latest solution is an excellent example of HP understanding our business goal of being more efficient and flexible and delivering exactly the right adaptive infrastructure to accomplish it.
- B. HP helped us optimize our current production plan and improve resource utilization, giving us better yield. We are now in a better position to provide estimated commitment to future orders because our production is near real-time, based on actual movement within the production line.
- C. HP ALM accelerates application transformation by empowering applications teams to plan, build, and deliver modernized applications to operations up to two times faster with optimized quality.
- D. Implementing HP Application and Performance Management Software for Composite Application Management and

HP Real User Monitor has increased the transaction success rate by 10% and application performance by 5%.

Correct Answer: C
