QUESTION 1

Which Transforming Service Delivery discovery question should you ask an IT executive in order to uncover a Cloud Service Automation pain point?

- A. Are you concerned about compliance, security, or governance with regards to your public cloud services?
- B. Do you have the ability to integrate database fault, availability, performance, and configuration management?
- C. Are you able to audit network device changes down to the keystroke change level?
- D. Are you spending more time gathering and formatting data and less time on results analysis?

Correct Answer: B

QUESTION 2

Which HP CloudSystem Enterprise Starter Suite value best resonates with the persona involved in Transforming Service Delivery?

- A. upgrades a CloudSystem Enterprise system to a CloudSystem Matrix environment
- B. helps you visualize, optimize, and plan performance in virtualized and cloud environments
- C. provides a self-service portal in order to deliver services from multiple providers
- D. enables comprehensive patching of physical and virtual farms

Correct Answer: B

QUESTION 3

Which HP Cloud Service Automation value best resonates with the persona involved in Transforming Service Delivery?

- A. offers a repeatable, scalable, automatable way to manage technical policy and reusable services
- B. consolidates and correlates fault and performance events across the entire physical and virtual IT infrastructure
- C. provides an extensible, enterprise-grade, service lifecycle management system
- D. automates tasks and processes in the data center using workflows that help IT teams execute change with greater speed, quality, reliability, and consistency

Correct Answer: D

QUESTION 4

Which HP Database and Middleware Automation value best resonates with the persona involved in Task Automation?

- A. security of virtual farms hosting clustered database systems
- B. end-to-end transaction and service level management through proactive end-user monitoring
- C. delivery of industry-standard best practices and subject matter expertise
- D. time value of data capture, coupled with immediate rich analytics insight

Correct Answer: A

QUESTION 5

Which specific challenges are faced by operations personnel and solved by the HP Software Cloud and Automation Suite Ultimate Edition solution? (Select two.)

- A. unauthorized security breaches of environments hosting back-end databases
- B. no log management solution to collect, unify, and search machine data
- C. no system to manage software and infrastructure components along with associated relationships and dependencies
- D. inability to trace real user transactions across application tiers to speed resolution times
- E. inability to audit Cisco routers down to the keystroke change level

Correct Answer: AC
