QUESTION 1

Which customer profile is the best target for HP Software Process Orchestration solutions? (Select three.)

A. customers with poor communication and hand-off between IT domains

B. customers with a heavy reliance on proprietary scripting methods

C. customers failing SLAs due to high mean time to repair (MTTR)

D. customers who want a modern and powerful virtual user generator

E. customers who want to cut costs by reducing application performance issues in production customers with high server-to-administrator ratios

Correct Answer: ABE

QUESTION 2

Which HP Cloud Service Automation value best resonates with the persona involved in Transforming Service Delivery?

A. offers a repeatable, scalable, automatable way to manage technical policy and reusable services

B. consolidates and correlates fault and performance events across the entire physical and virtual IT infrastructure

C. provides an extensible, enterprise-grade, service lifecycle management system

D. automates tasks and processes in the data center using workflows that help IT teams execute change with greater speed, quality, reliability, and consistency

Correct Answer: D

QUESTION 3

Which discovery question allows you to identify a customers critical business issue in terms of costs associated with Task Automation?

A. Are you spending more time gathering and formatting data and less time on results analysis?

B. What challenges are you facing in terms of staying ahead of the competition by delivering more innovative services?

C. Are you looking to adapt to new initiatives, such as cloud computing?

D. Are you aware of your server-to-administrator and/or database-to-administrator ratios?

Correct Answer: A

QUESTION 4

Which specific challenges are faced by operations personnel and solved by the HP Software Cloud and Automation Suite Ultimate Edition solution? (Select two.)

A. unauthorized security breaches of environments hosting back-end databases

B. no log management solution to collect, unify, and search machine data

C. no system to manage software and infrastructure components along with associated relationships and dependencies

D. inability to trace real user transactions across application tiers to speed resolution times

E. inability to audit Cisco routers down to the keystroke change level

Correct Answer: AC

QUESTION 5

What is the correct value proposition for the HP Software Server Automation Ultimate Edition solution?

A. reduces downtime and mean time to repair (MTTR) through root-cause analysis that maintains accuracy for dynamic networks

B. provides secure, scalable, and automated server configuration and lifecycle management for the enterprise hybrid data center

C. consolidates and correlates server fault and performance events across the entire physical and virtual IT infrastructure

D. integrates server monitoring and universal log management further reducing the time to troubleshoot tough-to-diagnose problems

Correct Answer: B
