QUESTION 1

Which statement most accurately describes the role of an IT organization in the delivery of the "New Style of IT"?

- A. IT organizations merely build applications according to specs and have little or no role in the actual design of the application.
- B. IT organizations demonstrate value to the business by managing the infrastructure that keeps the lights on
- C. Quite often, IT is seen as a bottleneck to the business, so the business outsources much of its business application development.
- D. Quite often IT organizations are re-inventing "the business"; they enable business agility by being agile.

Correct Answer: D

QUESTION 2

Which capability enables users to take advantage of the benefits of a framework, such as test component reuse, faster test creation, and reduced test maintenance?

- A. integrating HP Sprinter with HP ALM
- B. using HP Sprinter to conduct exploratory testing
- C. integrating HP Sprinter with HP Quality Center
- D. integrating HP Sprinter manual tests with HP Business Process Testing

Correct Answer: D

QUESTION 3

Which statement best describes the purpose of regression testing in software development?

- A. Regression testing is limited in that it tests the isolated functionality without the interdependencies of other software.
- B. Regression testing is used to verify system-wide business functionality, performance, and security.
- C. Regression testing is used to evaluate the end user experience and get real world feedback into the team to address issues
- D. Regression testing is used to ensure that new functionality does not result in another fault somewhere else in the software.

Correct Answer: B

QUESTION 4

Which discovery question will likely assist in understanding an organization's pain point that can be addressed by an HP Lifecycle Management solution?

- A. Is it difficult for the organization to monitor application performance and availability in real time?
- B. Are organizational silos impeding the process of planning, delivery, and hand off to operations?
- C. Can project and portfolio management be leveraged to improve business results?
- D. Is it difficult for the organization to monitor user mobile application performance and availability in real time?

Correct Answer: B

QUESTION 5

What key benefit does the HP Quality Management Solution provide a QA director?

- A. speeds up delivery for agile projects, which improves time to market
- B. aligns business goals to the IT organization
- C. improves team efficiencies without compromising quality
- D. isolates performance bottlenecks and security risks

Correct Answer: B
