QUESTION 3

Which HP Server family optimized for lightweight workloads including web serving, cloud, and hosted desktop infrastructure?

- A. HP blade System
- B. HP microserver
- C. Hp moonshot
- D. Hp Apollo

Correct Answer: C

Explanation:

Moonshot system components

Moonshot systems include four primary components:

- **Moonshot Server Cartridges**—Moonshot Server Cartridges are workload-optimized servers that can handle a wide variety of workloads but are optimized for the lightweight workloads customers request most often—web serving, cloud, hosted desktop infrastructure, and more.
-

QUESTION 4

Which interface are implemented in HP OneView to allow simple integration into an existing Enterprise Management environment?(Select two)

- A. NET framework
- B. SOAP API
- C. Scripting Change MessageBus
- D. RESTful API

Correct Answer: CD

Explanation: Explanation/reference:

OneView is designed with an open API and an SCMB to enable easy **integration** into the full capabilities of the management architecture. **The SCMB is an interface that allows custom scripts/integrations to be notified of changes to managed resources (both logical and physical resources) via asynchronous messaging.** For example, integration scripts could be notified whenever new server hardware has been added to the managed environment or when the health status of physical resources has changed—without having to continuously poll for status via the **REST APIs**.

All communication between external data consumers and internal components is conducted through the **RESTful interface**.

QUESTION 5

Which BIOS mode is implemented in ProLiant Gen9 Servers\\'?

- A. UEFI with Compatibility only
- B. Legacy BIOS
- C. Both UEFI and UEFI with Compatibility
- D. UEFI only

Correct Answer: C
