QUESTION 2

What is the security risk associated with printing from a mobile device away from the office?

A. Imaging and printing devices may store files on internal drives or hard disks.

B. Malicious users could disable a printing device from an unsecured control panel.

C. Employees may expose company data sent over unsecured networks or leave printouts uncollected.

D. Malicious users could change imaging and printing device settings from an unsecured control panel.

Correct Answer: C

QUESTION 3

For which reason is the lack of portability a significant advantage for desktop PCs?

A. High performance

B. Low TCO

C. Security

D. Flexibility

Correct Answer: C

Desktops are not portable. Not portable at all. And this is a good thing when it comes to security and durability. Because desktops don\\'t move very much--if at all--they\\'re fairly secure from theft.
