100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by HP Official Exam Center

QUESTION 1

Which HPE 3PAR StoreServ capacity based license should you recommend to a customer who needs converged storage?

A. File persona SW Suite

B. Data Optimization SW Suite

C. Replication SW suite

D. Operating System SW Suite

Correct Answer: A

QUESTION 2

Your customer\\'s data centers are interconnected with 16 km long dark fiber. Which type of 8 Gb fiber optic modules (SFPs) are required to connect the FC SAN switch ISL links?

A. extended reach SFP+ tranceiver (LR)

B. long reach multimode SFP+ tranceiver (LRM)

C. extended long wave SFP+ tranceiver (ELWL)

D. long wave SFP+ transceiver (LW)

Correct Answer: B

QUESTION 3

Match the SAN fabric topology with the appropriate description of how interconnected switches are arranged in that fabric.

ring fabric

▼

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

meshed fabric

▼

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

core-edge fabric

▼

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

cascaded fabric

▼

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

Hot Area:

ring fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

meshed fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

core-edge fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

cascaded fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

Correct Answer:

ring fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

meshed fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

core-edge fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

cascaded fabric

In a tree format with one or more ISLs
In a loop format with a minimum of two paths for each switch
In a format where all switches are connected to each other
In a format that minimizes ports consumed for ISLs

QUESTION 4

What is benefit of the HPE StoreVirtual architecture?

A. meshed cluster architecture

B. silicon-based hardware acceleration of thin technologies

C. ability to scale out to meet small and medium-size business virtualization needs

D. host interface choice of 8 Gb/16 Gb FC, 1 Gb/10 GbE iSCSI and 12 Gb SAS to meet customer needs

Correct Answer: C

QUESTION 5

Which networking transport protocol is used in a NAS environment?

A. TCP

B. FCIP

C. Ethernet

D. Token Ring

Correct Answer: B
