**QUESTION 1**

Which HPE technology helps to address concerns about server interconnectivity and cable management, and the network effect of increased East-West server traffic when using VMware vMotion for virtual machine migration?

A. HPE ProLiant DL servers with a traditional three-tier infrastructure

B. HPE ProLiant DL servers with HPE StoreVirtual 4000 Storage

C. HPE BladeSystem with HPE Virtual Connect

D. HPE BladeSystem connected to externaliSCSi storage

Correct Answer: C

**QUESTION 2**

A customer is building an isolated management network for Gen8/Gen9 servers. The customer plans to use the iLO federation feature for all of them.

What should the architect verify when proposing network infrastructure for this purpose?

A. that the SNMP is enabled on all of the servers within the same iLO Federation group

B. that the managed servers are equipped with network adapters supporting VXLAN

C. that the switches that management ports will be connected to will support multicast

D. that the customer has licenses for intelligent Resilient Framework functionality

Correct Answer: B

**QUESTION 3**

A service provider is planning to migrate to a new cloud platform. The existing cloud solution uses VLANs for tenant network separation. However, the service provider is not satisfied with the scalability limits of the setup.

A. RDMA over Converged Ethernet (RoCE)

B. remote direct memory access (RDMA)

C. data center bridging (DCB)

D. generic routing encapsulation (GRE)

Correct Answer: D

**QUESTION 4**

A customer plans to use Flat SAN technology to connect a new storage system.

Why would the customer choose the Virtual Connect Flat SAN technology connected to a 3PAR StorServ storage system versus a competitive solution?

A. It helps create multi-tiered SANs, and increases throughput and resiliency.

B. It eliminates the SAN fabric by off-loading the workload to a switch.

C. It reduces the number of component, lowers latency, and speeds deployment.

D. It uses the RESTful API connections to simplify managing the entire solution.

Correct Answer: C

QUESTION 5

A solutions architect is designing an HPE ProLiant BladeSystem and HPE StoreVirtual storage solution for a customer, and needs to estimate power requirements.

Which HPE tool should the architect use?

A. HPE Insight Management Sizer

B. HPE OneView

C. HPE Power Advisor

D. HPE Power Discovery Services

Correct Answer: C
