- D. HPE BladeSystem C7000

Correct Answer: A

---

**QUESTION 4**

DRAG DROP

Match each Synergy component with the description of the functionality it provides.

Select and Place:

Component	Functionality
Composer	<input type="text"/>
Frame Link Module	<input type="text"/>
Image Streamer	<input type="text"/>
Virtual Connect SE 40 Gb F8	<input type="text"/>

management appliance responsible for assembling and re-assembling compute, storage, and fabric resources.

management appliance responsible for operating system provisioning that enables true stateless computing.

module that provides a composable fabric.

provides services such as power, cooling, auto-discovery and inventory of all installed components.

Correct Answer:

Component	Functionality
<input type="text"/>	Frame Link Module
<input type="text"/>	Image Streamer
<input type="text"/>	Virtual Connect SE 40 Gb F8
<input type="text"/>	Composer

management appliance responsible for assembling and re-assembling compute, storage, and fabric resources.

management appliance responsible for operating system provisioning that enables true stateless computing.

module that provides a composable fabric.

provides services such as power, cooling, auto-discovery and inventory of all installed components.

### QUESTION 5
