QUESTION 1

A customer wants to implement HPE Global Dashboard for their environment based on HPE Synergy and HPE SimpliVity nodes. What must an integrator be aware of when deploying HPE Global Dashboard for this customer?

- A. HPE Global Dashboard agent must be installed on HPE SimpliVity nodes
- B. The Single Sign-On feature is not supported for HPE SimpliVity nodes
- C. HPE SimpliVity nodes must be licensed within HPE Global Dashboard
- D. Only HPE SimpliVity 380 is supported because of the OmniStack hardware card

Correct Answer: B

QUESTION 2

Which component must be deployed at the customer site and is essential for HPE InfoSight for Servers?

- A. HPE Intelligent Provisioning
- B. HPE Global Dashboard
- C. iLO Amplifier Pack
- D. HPE Composer

Correct Answer: C

QUESTION 3

Refer to the exhibit.

Add Connection

General

Name	<input type="text" value="Connection"/>	
Function type	<div><div>Ethernet</div><div>Fibre Channel</div><div>iSCSI</div></div>	Specify the device type
Network		<input type="text" value=""/> <input type="button" value="Q"/>

An integrator needs to add an FCoE connection to the server profile, but the FCoE connection type is not available.

What is the likely cause of this issue?

- A. FCoE capable interconnect modules are not installed in the Synergy frame
- B. Defined FCoE network is not associated with a SAN or does not have VLAN Id defined
- C. A FCoE connection is not available, as there is no LIG configured for FCoE connectivity
- D. The FCoE connection has not been added as a Fibre Channel connection within a server profile

Correct Answer: D

QUESTION 4

A customer is considering implementing a DRS cluster, but they would like to know how DRS can help to achieve performance goals.

How should an integrator respond?

- A. When powering on a virtual machine, a DRS cluster can automatically place it on the optimal host.
- B. Selected virtual machines will be assigned higher priority when the amount of physical resources will drop below a specific level.
- C. A DRS cluster will migrate a virtual machine to a different host when available network bandwidth will drop below a specific level.
- D. If more than 50 virtual machines will be running on a single host, DRS cluster will configure CPU affinity to proportional resource allocation.

Correct Answer: B

QUESTION 5

An integrator prepares deployment documents with the list of all the hardware and software components. The integrator also needs a list of all infrastructure services deployed, with the functionality described.

Which services are provided by the vCenter Server component and should be placed in the report? (Choose two.)

- A. Auto Deploy
- B. Single Sign-On
- C. Update Manager
- D. Lookup Service
- E. Certificate Authority

Correct Answer: CD
