**QUESTION 1**

You organize a workshop for your customers IT team to handover a newly deployed backup solution based on HPE StoreOnce backup targets with Veeam as the backup application.

Is this an important best practice for this scenario? Solution: Use HW snapshot integration in the Job advanced properties it is much faster and has lighter impact on the production VMs to be backed up.

A. Yes

B. No

Correct Answer: B

QUESTION 2

Your customer runs a hyperconverged solution based on HPE SimpliVity. with a built-in data protection mechanism from HPE SimpliVity. They try to recover objects from a Microsoft Exchange server but cannot find the option in the user interface. Is this valid response regarding their problem? Solution: Since HPE SimpliVity does not support Granular Object Restore (GRE), you must use an additional data protection application like Veeam

A. Yes

B. No

Correct Answer: B

QUESTION 3

A customer is currently using HPE StoreEver MSL2Q24 tape libraries with LT06 tape drives. They contact you about the need for more capacity on the tapes with the ever-lasting growth of data within their company.

Does this recommendation offer a viable option for upgrading the storage capacity of the tape libraries?

Solution: Upgrade to LTO8 drives giving the highest capacity on tapes at this moment. The customer still needs a dedicated LT06 drive for future restores from their current LT06 tapes.

A. Yes

B. No

Correct Answer: B

**QUESTION 4**

The customer currently has one HPE 3PAR and two Nimble storage arrays connected via Fibre Channel (FC) to 12 HPE OL380 servers running VMware. They make backups with Commvault to HPE StoreEver tape libraries. They also make snapshots inside the storage array, to lower RTO and RPO. They store the snapshots on the array itself, and fear that they might be vulnerable to array failures. They want to maintain their low RTO and RPO objectives while storing data outside the array. Is this a valid option for the customer? Solution: Use HPE InfoSight for autonomous data protection, storing data on multiple arrays based on predictive analytics defined policies.

A. Yes

B. No

Correct Answer: A

QUESTION 5

Your customer's current data protection solution is based on HPE Nimble storage and HPE StoreOnce in combination with Veeam software. The customer wants to know how to integrate a new SAP HANA solution into the current data protection solution.

Does this statement provide a valid recommendation?

Solution: Use HPE Recovery Manager Central (RMC) which rapidly moves SAP HANA data residing on the HPE Nimble storage array directly to HPE StoreOnce.

A. Yes

B. No

Correct Answer: B
