**QUESTION 1**

What has been a hallmark of HPE from the time it started?

- A. innovative solutions
- B. converged infrastructure
- C. conventional paradigms
- D. IT as a service

Correct Answer: A

QUESTION 2

You have identified a potential hybrid IT prospect. This customer has already virtualized much of the data center, although a few workloads run on bare metal. The customer also has some cloud services. The customer wants to continue using some public cloud services but bring other services back to the data center.

Which approach should you take with this customer?

- A. Approach the customer with a pre-packaged HPE private cloud built on hyper converged Infrastructure.
- B. Avoid wasting more time on this opportunity because the customer is already committed to public cloud.
- C. Take a services-led approach to help the customer unify their services in an automated hybrid cloud.
- D. Help the customer plan how to update their database applications to better support big data and cloud object storage.

Correct Answer: A

QUESTION 3

Which of the following is an example of an IT industry architecture that is commonly used in HPE Edge-to-Cloud Solutions?

- A. Virtualization
- B. Artificial intelligence
- C. Blockchain
- D. Augmented reality

Correct Answer: A

QUESTION 4

When collecting customer requirements for an HPE Edge-to-Cloud solution, which of the following is a key consideration?

- A. Documenting requirements in a way that is easy to understand for technical experts only
- B. Gathering requirements from a single stakeholder to avoid conflicting inputs
- C. Asking open-ended questions to gather as much information as possible
- D. Avoiding any requirements that are difficult to implement

Correct Answer: C

QUESTION 5

What is one trend that is driving customers to implement Hadoop?

- A. the development of SQL databases
- B. the shift toward systems of record
- C. the proliferation of unstructured data
- D. the expansion of structured data

Correct Answer: C
