QUESTION 1

Which business benefit does the HPE ProLiant Gen9's efficient cooling provide versus Cisco UCS?

- A. ProLiant Gen9 servers experience less downtime because they can operate at higher temperatures.
- B. ProLiant Gen9 servers have greater compute power because they operate at lower temperatures.
- C. ProLiant Gen9 servers have a longer life cycle because they operate at lower temperatures
- D. ProLiant Gen9 servers can operate at higher temperatures to reduce energy costs

Correct Answer: D

QUESTION 2

Which statement is true about legacy networks ?

- A. Legacy networks offer good visibility into real-time traffic so admins can take appropriate action.
- B. Legacy networks are designed for modern application traffic, which typically follow a north-to-south direction.
- C. Legacy networks are easy to manage because network services are divided into three organized tiers
- D. Legacy networks are inflexible, inhibit scalability, and limit innovation

Correct Answer: D

QUESTION 3

How do HPE networking products support software-defined networking (SDN)?

- A. Many of the existing HPE switches are SDN-enabled and use open-standard technologies
- B. HPE offers many switches and routers that support SDN, with an additional SDN license required.
- C. HPE is currently focused on its cloud portfolio rather than SDN.
- D. HPE offers several special SDN models in its router portfolio.

Correct Answer: A

QUESTION 4
