-  **800,000+** Satisfied Customers

QUESTION 1

What benefit does the Aruba AppRF feature provide your customers?

- A. It dynamically adjusts the radio power to reduce interference in high-density AP environments.
- B. It connects clients to the best available AP, eliminating issues caused by clients that stick to an AP even if the signal strength is weak.
- C. It inspects wireless traffic to monitor how applications are used and to give priority to business-critical applications.
- D. It improves wireless performance by moving AP radios to channels that are not experiencing RF interference.

Correct Answer: C
