**QUESTION 1**

You plan to add a user account that can only manage a subset of resources. You notice that the Scope field only lists All Resources when creating the user. What is the cause of this behavior?

- A. Scopes can only be assigned when using certain roles.
- B. Scopes can only be assigned after creating the user account.
- C. Scopes cannot be used if roles are assigned to the user account.
- D. Scopes must be defined before assigning them to user accounts.

Correct Answer: D

The user scope setting must be made before the first object user is created. Reference:
