A customer with approximately 200 users in Active Directory, is running Aruba Mobility Controllers, Palo Alto firewalls, and Pulse Secure VPN and InfoBlox DNS on their network. They would like to implement the 2RU Fixed Configuration Analyzer Standard Edition.

A. Yes

B. No

Correct Answer: B

**QUESTION 2**

An IntroSpect installation has been up for a day. While validating the log sources, you see an Aruba

Firewall log source configured on a Packet Processor that has shown up on the interface in the analyzer.

controller and confirm there is user activity in the dashboard.

correctly.)

A. Yes

B. No

Correct Answer: B

**QUESTION 3**

A customer is asking you to explain the difference between a data breach and a data leak. Does this explain the difference? (In both cases, data has left your network for the outside. A. Yes

B. No
