

# HPE3-U01<sup>Q&As</sup>

Aruba Certified Network Technician Exam

## Pass HP HPE3-U01 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

<https://www.pass4itsure.com/hpe3-u01.html>

100% Passing Guarantee  
100% Money Back Assurance

Following Questions and Answers are all new published by HP Official Exam Center

- ⚙️ **Instant Download** After Purchase
- ⚙️ **100% Money Back** Guarantee
- ⚙️ **365 Days** Free Update
- ⚙️ **800,000+** Satisfied Customers

**QUESTION 1**

Which accurately describes the TCP/IP Model? (Select two.)

- A. It is a set of communication protocols used on TCP-based networks only.
- B. It specifies how to compress, fragment, encrypt, and analyze data.
- C. It specifies how to assemble, address, transmit, route, and disassemble a data packet.
- D. It is a set of communication protocols used on IP-based networks only.
- E. It is a set of communication protocols used on Ethernet-based networks only.

Correct Answer: CD

---

**QUESTION 2**

You are managing an ArubaOS-CX switch using the CLI. The current prompt reads "Switch(config-if>#". Which single CLI command should you issue to move back to the Manager context?

- A. end
- B. disable
- C. quit
- D. exit

Correct Answer: A

---

**QUESTION 3**

Which unit of measurement is recommended for expressing radio frequency power due to its logarithmic nature?

- A. lumens
- B. decibel relative to isotrope (dBi)
- C. milliwatt (mW)
- D. decibel relative to milliwatt (dBm)

Correct Answer: D

Decibel (dB) Decibel is a logarithmic unit of measure used to express the ratio of two values of the same measure. This unit is not included to the System International of units (SI), but it is widely used in communication systems and many other technical fields, as it allows to compare two values of any nature, provided that these values are expressed in the same unit. Decibel is a decile of the main, larger unit -- Bel. Bel is a common logarithm of the ratio of two energies. But in practice Bel was a far too big value, therefore its tenth part is used ?decibel. The logarithmic method of presentation of numbers often can be very useful, as it allows to replace multiplication with addition, division with subtraction, raising

to power with multiplication, and extracting a root with the division. What is measured in dB in the MRFC: Gain constant  
Sound level Signal/noise ratio Signal attenuation

#### QUESTION 4

Given the 172.16.0.0 255.255.255.0 IP segment, how many IP addresses can be assigned to host and network devices?

- A. 126
- B. 6
- C. 128
- D. 4

Correct Answer: C

---

#### QUESTION 5

What are characteristics of Aruba Central? (Select two.)

- A. It must be deployed as an on-premises server.
- B. It manages networking equipment using SNMP.
- C. It manages networking equipment using HTTPs.
- D. It can manage third-party networking equipment.
- E. It is considered cloud-based network management.

Correct Answer: DE
