QUESTION 1

How is ALE licensed?

A. one enterprise license per controller

B. one license per user

C. one license per AP

D. one license per server

Correct Answer: C

QUESTION 2

Which Meridian Editor report reveals how many visitors use a Meridian-powered app?

A. Screen interactions

B. Total Activity

C. Visitor interactions

D. Directions

Correct Answer: B

QUESTION 3

A customer has an Aruba Wi-Fi deployment with 20 AP-325s around their 100,000 square foot (9,290.30 square meter) facility. The customer now wants to implement Aruba location services with the use of a venue Meridian app, along with Bluetooth as the technology for positioning.

Which type of information should the network administrator share with the customer to prepare them to meet their goal?

A. The customer can use their AP-325s as beacons, but may require more battery- powered beacons for an optimized indoor positioning deployment

B. The customer will not need to purchase any more equipment since they already have AP-325s

C. The customer will need to purchase USB beacons for management, but otherwise their AP-325s will handle the indoor positioning.

D. The customer will need to swap out their AP-325 deployment with battery-powered beacons, as they cannot be mixed in a deployment.

Correct Answer: C

QUESTION 4

What is the purpose of the OAuth2 API?

A. to define the ClearPass role to apply to an authenticated user, post authentication

B. to indicate which database to send the authentication request for a Meridian-powered app

C. to define what to do with incoming authentication requests from a controller

D. to interface a Meridian-powered app to pass authentication information to ClearPass

Correct Answer: D

QUESTION 5

Which type of app requires users to enter a starting point and destination to receive turn- by-turn directions?

A. non-location aware

B. location aware

C. beacons enabled

D. SDK

Correct Answer: C
