QUESTION 4

For a user story to be considered ready for the next iteration, it must have:

- A. Just enough detail for the team to successfully complete the story
- B. Rigorous justification and defined meaning
- C. Management approval and go-ahead
- D. Quality checks and detailed documentation

Correct Answer: C

QUESTION 5

A team has been delivering a steady stream of small value increments and has completed several solution components, with some still remaining. The solution owner examines the reactions to the delivered components from customers, and decides that the need has been met and the remaining potential components won't deliver enough additional value to justify doing them. The solution owner will:

- A. Request Strategy Horizon input about what action to take
- B. Accept the work is complete and cancel remaining work
- C. Fully document the working initiative
- D. Ask the team to come up with new, more valuable, solution components for the initiative

Correct Answer: A
