### QUESTION 1

Let  $i^0 = x$ . The value of  $x$  is a(n):

Let  $i^0 = x$ . The value of  $x$  is a(n):

- A. irrational number
- B. complex number
- C. whole number
- D. imaginary number

Correct Answer: C

### QUESTION 2

The graph shows the number of pies sold at a school bake sale?

Hours since start of sale	Pies sold
1	⊙ ⊙
2	⊙
3	⊙ ⊙ ⊙ ⊙
4	⊙ ⊙ ⊙ ⊙ ⊙ ⊙
5	⊙ ⊙ ⊙

How many pies were sold at the bake sale?

- A. 16
- B. 80
- C. 160
- D. 220

Correct Answer: B

---

### QUESTION 3

The cost of go-karting is S dollars for the first ten laps around the track and T dollars for each additional lap. What is the cost, in dollars, of go-karting for 17 laps?

- A.  $T + (S \times 7)$
- B.  $S + (T \times 7)$
- C.  $(S \times 10) + T$
- D.  $17 + S + T$

- A. Option A
- B. Option B
- C. Option C
- D. Option D

Correct Answer: B

---

### QUESTION 4

Which sentence best summarizes the author's main idea in this passage?

1 Oceans cover most of Earth's surface,  
2 and in their depths dwells most of the planet's  
3 life. We are drawn to certain aspects of the  
4 ocean, yet most of the marine world is alien to  
5 us. Just offshore, coral reefs dazzle us with rich  
6 colors and complex ecosystems. Reef fish are  
7 often quite beautiful, displaying a stunning  
8 variety of colors and patterns, and are a  
9 favorite choice for fish tanks. However, some  
10 parts of the ocean are less familiar to us. Kelp  
11 forests – thick, dizzying mazes of life – provide  
12 food for snails and urchins, which in turn are a  
13 source of food for otters, rockfish, and other  
14 predatory animals. Far out beyond the coast,  
15 where waves tower over ships, whales and  
16 massive fish graze on microscopic plankton,  
17 extracting their sustenance from what appears  
18 to the naked eye to be nothing but water. And  
19 deep down, beyond the continental shelf,  
20 beyond the warming rays of the sun, lie the  
21 abyssal plains.

22 Here flat grey plains of ooze stretch over  
23 incredible distances, shrouded in darkness, fed  
24 by a constant rain of decaying matter from the  
25 seas above. At first glance, these appear to be  
26 dead, empty places, but in truth they teem with  
27 life. Most of the life on the abyssal plains is  
28 bacterial, but there are larger creatures there  
29 too. Deep sea corals grow in the abyssal  
30 plains, anchoring themselves to the sea floor.

31 There are also less familiar forms of life, like  
32 the giant isopod and the sea pig. The giant  
33 isopod is a crustacean, like a shrimp or lobster,  
34 but it resembles a pill-bug, and can grow to be  
35 more than a foot long. The sea pig is a kind of  
36 sea cucumber. Most sea cucumbers resemble  
37 slugs, but the sea pig has developed small  
38 tubular legs and walks along the sea floor. It  
39 gets its name from these legs and from its soft  
40 pink flesh. There are fish, too, like the tripod  
41 fish which uses long thin fins to perch on top of  
42 the ooze, or the anglerfish which uses a  
43 glowing rod-like appendage to lure prey into  
44 its hungry jaws. And there must be much more  
45 than we yet know; although this vast region  
46 covers more than half of the entire solid  
47 surface of the planet, it is one of the most  
48 poorly explored places on Earth.

49 We have explored less than 1% of the  
50 area covered by the abyssal plains, and most of  
51 that exploration has been conducted by  
52 remotely operated vehicles. Although we do  
53 have small submarines capable of carrying  
54 people to the depths of the ocean, fewer people  
55 have gone to the abyssal plains than have gone  
56 into space. This deep frontier, vast and  
57 mysterious, will surely yield many new  
58 discoveries in years to come if we only go and  
59 look for them.

- A. Plankton are an essential part of ocean food chains even in the deepest areas.
- B. We should invest more in exploring the ocean than in exploring space.
- C. The ocean is a strange and wonderful place which is not yet fully explored.
- D. We don't know very much about space and the oceans.

Correct Answer: C

#### QUESTION 5

$$12 \times (3/12 - 1/4) =$$

- A. 0
- B. 1/12
- C. 6
- D. 24

Correct Answer: A
