**QUESTION 1**

Peter works at the company Midwest Insurance. His manager, Linda, asks him to send the terms and conditions for a life insurance policy to Rachel, a client. Who determines the value of the information in the insurance terms and conditions document?

- A. The recipient, Rachel
- B. The person who drafted the insurance terms and conditions
- C. The manager, Linda
- D. The sender, Peter

Correct Answer: A

---

**QUESTION 2**

A company moves into a new building. A few weeks after the move, a visitor appears unannounced in the office of the director. An investigation shows that visitors passes grant the same access as the passes of the company's staff.

Which kind of security measure could have prevented this?

- A. physical security measure
- B. An organizational security measure
- C. A technical security measure

Correct Answer: A

---

**QUESTION 3**

You apply for a position in another company and get the job. Along with your contract, you are asked to sign a code of conduct. What is a code of conduct?

- A. A code of conduct specifies how employees are expected to conduct themselves and is the same for all companies.
- B. A code of conduct is a standard part of a labor contract.
- C. A code of conduct differs from company to company and specifies, among other things, the rules of behavior with regard to the usage of information systems.

Correct Answer: C

---

**QUESTION 4**

You are a consultant and are regularly hired by the Ministry of Defense to perform analysis. Since the assignments are irregular, you outsource the administration of your business to temporary workers. You don't want the temporary workers to have access to your reports.

Which reliability aspect of the information in your reports must you protect?

- A. Availability
- B. Integrity
- C. Confidentiality

Correct Answer: C

---

#### QUESTION 5

One of the ways Internet of Things (IoT) devices can communicate with each other (or the outside world) is using a so-called short-range radio protocol. Which kind of short-range radio protocol makes it possible to use your phone as a credit card?

- A. Near Field Communication (NFC)
- B. Bluetooth
- C. Radio Frequency Identification (RFID)
- D. The 4G protocol

Correct Answer: A
