**QUESTION 1**

Which of the following RAID levels requires at least four hard disks?

- A. RAID 0
- B. RAID 1
- C. RAID 5
- D. RAID 10

Correct Answer: D

QUESTION 2

Your customer calls you to say that a just completed server installation has little activity and (to paraphrase what was actually said) only some "random beeps." You are trying to encourage your customers in general to become more resourceful and professional in their outlook. So rather than just give the answer, you want to get this customer to go and find the answer. In which document would you recommend looking for the beep post-code/LED post-code descriptions?

- A. The Quick start guide
- B. The TPS
- C. The User Guide
- D. The Product Service Guide
- E. The FAQ

Correct Answer: B

QUESTION 3

Your customer is planning to compete in a large government tender and finds that Intel TXT is a requirement. You have been asked as an Intel Server Specialist what is required in order to use Intel TXT on a Grantley platform. How would you answer from this list?

- A. The C606 chipset enabled
- B. Special Intel software must be installed
- C. The AXXT PME5 is installed
- D. Intel Premium feature key for RAID encryption installed
- E. An Intel Xeon?CPU

Correct Answer: C

QUESTION 4

During a RAID "Deep-Dive" training event that you have organized as the Intel Server Specialist, you have been asked how to increase the speed of HWRAID. How would you answer that question from the following list? (Select ALL that apply).

- A. "Write Through" should be enabled.
- B. The battery should be removed.
- C. "No Read Ahead" should be enabled.
- D. "Always Read Ahead" should be enabled.
- E. "Always Write Back" should be enabled.

Correct Answer: DE

QUESTION 5

Which of the following is the MOST robust RAID level with 4 HDDs?

- A. RAID 0
- B. RAID 5
- C. RAID 6
- D. RAID 10

Correct Answer: C
