**QUESTION 1**

Your customer has called you with the following question and would like to know what (if any) are the headline differences between a traditional server virtualization model and the cloud. (Select ALL that apply).

- A. There is no difference.
- B. The cloud model has one large virtualized, orchestrated resource pool allowing for addition of capacity on demand.
- C. In the cloud, applications and services are automatically and intelligently orchestrated within a single physical resource pool.
- D. The cloud has compute and storage resources connected to the same local area network.
- E. The server virtualization model has no automation.
- F. Only a private cloud offers the intelligence and automation for applications with "always-on" elastic services.

Correct Answer: BC

QUESTION 2

Your customer calls with an error message they noticed while making some changes in the BIOS setup screen; stating that the "SEL is full." What does this mean and how would you advise your customer to correct this error from the list below?

- A. They should enable the option "Clear the SPI flash memory."
- B. They should clear the SEL using SELViewer
- C. They should clear the SEL using SELclear utility
- D. They should enable the option "Clear SEL" in BIOS
- E. They should install an additional flash drive for the SEL

Correct Answer: B

QUESTION 3

Which of the following battery backup units are compatible with the Intel Raid Controller RS3DC080? Please choose your answer from the list below.

- A. AXRMFBU
- B. AXRMFBU4
- C. AXRSBBU9
- D. AXRSBBU8

E. AXRMFBU2

Correct Answer: C

QUESTION 4

Your customer has asked you to enable BMC management and remote access. They are now asking you to walk them through the different features which are available via the Embedded Web Server. They would like to see what the current power draw of the server is. Please choose all the correct answers from the list below:

- A. Configuration Tab, Node Manager and Power Monitor
- B. System Information Tab and power monitor
- C. Server Health Tab and Power statistics
- D. System Information Tab, FRU Information and Power Monitor

Correct Answer: C

QUESTION 5

As an Intel Server Specialist, you are educating your customer on the different memory offerings that are available in the current server generation. How many UDIMMs per channel can be installed in the Grantley servers?

- A. 0 UDIMMs per channel
- B. 1 UDIMMs per channel
- C. 2 UDIMMs per channel
- D. 3 UDIMMs per channel
- E. 4 UDIMMs per channel

Correct Answer: A
