QUESTION 1

The project manager is writing a business case for the improvement. This business case explains how following the CSI approach will contribute to the improvement work.

Which is a correct description of the purpose of a CSI step in this improvement work?

- A. "Where are we now?" will document process issues that need to be resolved.
- B. "How do we get there?" will specify the objectives and business case for the project.
- C. "What is the vision?" will identify the best ITSM software tool to use.
- D. "Did we get there?" will define measurable steps for the project.

Correct Answer: A

QUESTION 2

What is organizational change management (OCM) MOST likely to contribute to in an organization?

- A. The knowledge required to support the adoption of new technology platforms.
- B. Cultural changes required as a result of adopting new business processes.
- C. Standard changes that are made to IT service assets and configuration items.
- D. The development of underpinning processes for a change management standard.

Correct Answer: B

QUESTION 3

Why is a meeting notes template used?

- A. To record meeting objectives while the meeting is in progress.
- B. To help the meeting chairperson to capture key details.
- C. To ensure that the meeting runs to planned timings.
- D. To ensure the correct participants attend the meeting

Correct Answer: A

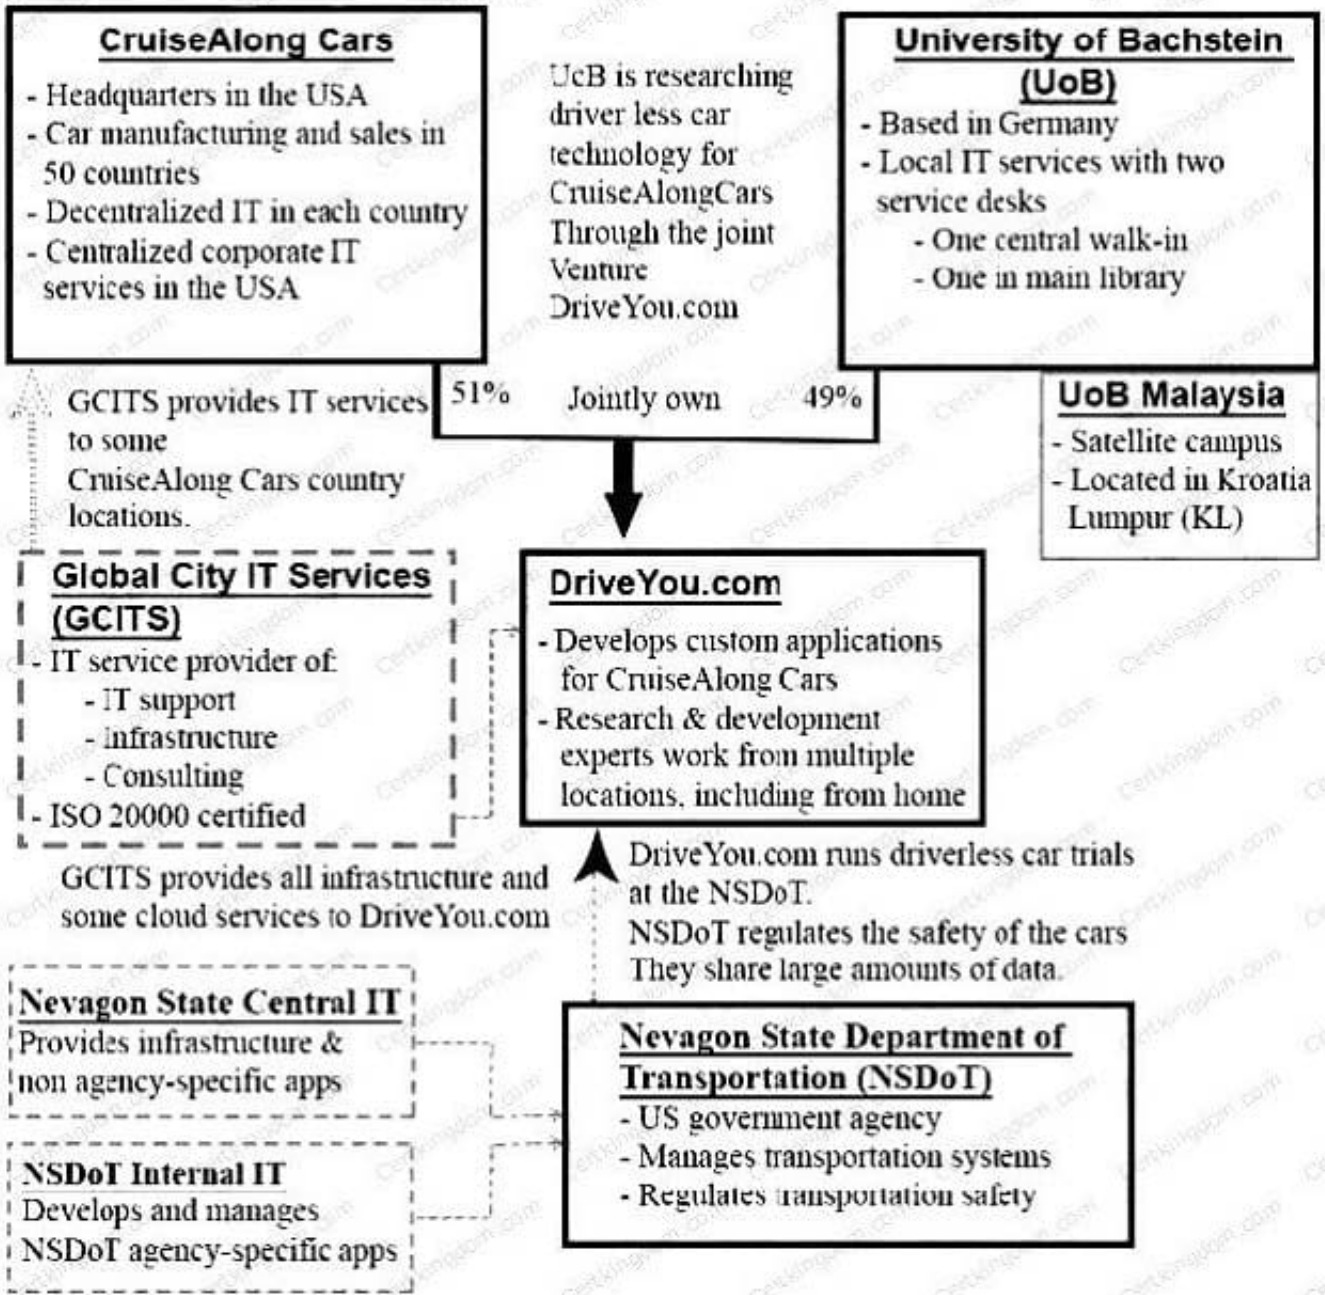

QUESTION 4

See the scenario for additional informational.

Scenario:

(Note: The companies and people within the scenario are fictional)

Legend

Organization

IT service provider

Has ownership of

Provides IT services to

Provides services to

CruiseAlong Cars CruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America; It has grown by acquisition over the last 20 years and has operations in over 50

countries. Each country has its own IT organization, with some central corporate IT services provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries. Some of the issues that CruiseAlong Cars needs to address include: Inefficiencies caused by the current IT structure Inconsistency of IT services when employees are travelling CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share. DriveYou.com This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevagon State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include: Better structure and accountability around their work practices Compliance with safety and other regulatory requirements. University of Bachstein (UoB) The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia; In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a `walk-in` service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university`s administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area; Some of the issues that the UoB needs to address include: Complete the centralization and consolidation of IT Manage growth and increasing IT demand Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include: Succeed in establishing a strategic partnership with CruiseAlong Cars Nevagon State Department of Transportation (NSDoT) NSDot is a government agency in the US state of Nevagon, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data; The NSDoT`s internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevagon State central IT department. The IT department at the UoB does not have a service catalogue or a service portfolio, and there is limited understanding of the structure and value of services in the organization. Many of the individual departments and faculties are resistant to the CIO`s vision for global services. They have decided to appoint business relationship managers (BRMs) who will be expected to address many of the challenges, in order to support collaboration and help to define global services. Some business analysts are going to be transferred to these new positions. One of the BRMs has had an improvement idea for implementing a de-centralized support model that can be actioned quickly. The BRM proposed implementing the improvement in the next three months. The improvement was rejected by the CIO who has suggested that the idea should never have been proposed.

Which tool should the BRM have used to predict the CIO`s response at this early stage?

- A. The CSI register, to properly define the timescale for implementation.
- B. The CSI register, to define who the improvement would be actioned by.
- C. The orientation worksheet, to understand the organizational vision.
- D. The orientation worksheet, to measure the success of the improvement.

Correct Answer: B

It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bidirectional sharing of large amounts of data; The NSDoT's internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevegong State central IT department. DriveYou.com decided to move the storage and management of their testing data to a new platform so that they can share it more effectively with the UoB. They also need to facilitate data transfer from new CruiseAlong Cars research facilities in Japan and Australia; The DriveYou.com project manager has set up an initial teleconference for the project, which will include the new research teams from CruiseAlong Cars.

How could the project manager ensure that 'verbal handshaking' is addressed?

- A. By ensuring that action points and next steps are clarified and agreed during the session.
- B. By organizing face-to-face meetings in advance to build rapport and personal contact.

C. By requesting that all parties listen closely to discussions and do not speak over each other.

D. By creating a digital recording to ensure that all the discussions are captured and can be reviewed.

Correct Answer: A
