**QUESTION 1**

You are setting up a large catalog on Magento Commerce. You have created a category tree arranged with several levels of depth and assigned each product to the categories it directly belong to.

You also need the product to display on all ancestors of any category to which the product is assigned. You need a simple solution for this since you expect frequent changes to the catalog structure.

What do you do?

- A. Set up Clone Category ID rules with Visual Merchandiser to make each ancestor category copy its decedent categories
- B. Assign each product directly to the correct ancestor categories and update these assignment with future catalog changes
- C. Enable the Anchor flag on each category to automatically include the products from any descendent categories
- D. Modify the Category Permissions configuration to allow all categories access to products in decedent categories

Correct Answer: D

QUESTION 2
