QUESTION 1

DRAG DROP

A company implements a Dynamics 365 Commerce e-commerce website.

The company wants specific components to appear on a product page to help customers decide to purchase those products.

You need to configure the product page.

Which module types should you configure? To answer, drag the appropriate module types to the correct requirements. Each module type may be used once, more than once, or not at all. You may need to drag the split bar between panes or

scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Module types	Answer Area	Module type
Buy box	Requirement	Module type
Header and footer	Display navigation to product categories and provide information links to company policies.	Module type
Marketing	View the product name, description, and product ratings.	Module type
Product specifications	Display the attributes about a product.	Module type

Correct Answer:

Module types	Answer Area	Module type
	Requirement	
	Display navigation to product categories and provide information links to company policies.	Header and footer
Marketing	View the product name, description, and product ratings.	Buy box
	Display the attributes about a product.	Product specifications

QUESTION 2

Your role of Systems Administrator includes the management of your company's Microsoft Dynamics 365 Finance system. Users report that the results in financial reports are incorrect.

You discover that the discrepancies are caused by users selecting invalid main account and dimension combinations when posting journal entries. You need to specify which financial dimensions are valid for which main accounts to prevent the invalid main account and dimension combinations. What should you configure?

- A. Ledger allocation rules
- B. Financial dimension sets
- C. Account structure
- D. Cost classifications

Correct Answer: B

QUESTION 3

HOTSPOT

A company uses Dynamics 365 Commerce.

The company wants to introduce the following scheme to reward customer loyalty and encourage repeat sales:

Customers must automatically be assigned a status of Silver, Gold, or Platinum based on the value of orders completed in the last 12 months.

Additional promotional discounts must be given based on customers' assigned status when they place new orders.

You need to configure the system to meet the requirements.

How should you configure the system? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer Area**

Object	Configuration option
Price groups	<div><div></div><div><div>Per program tier</div><div>Per loyalty program</div><div>Per loyalty scheme</div><div>Per promotional discount</div></div></div>
Loyalty program	<div><div></div><div><div>Three tiers assigned to one program</div><div>Three programs with no tiers</div><div>Three earning rules assigned to one program</div><div>Three programs with a redemption rule each</div></div></div>
Reward point type	<div><div></div><div><div>Amount</div><div>Quantity</div></div></div>
Earning rule type	<div><div></div><div><div>Purchase products by amount</div><div>Purchase products by quantity</div><div>Sales transaction count</div></div></div>

Correct Answer:

**Answer Area**

Object	Configuration option
Price groups	<div>▼</div>
	Per program tier
	Per loyalty program
	Per loyalty scheme
