QUESTION 1

A company uses Dynamics 365 Commerce to process sales through its retail store channels.

You need to offer alternative prices to a group of valued customers for a selection of products. If the system identifies that multiple prices are valid for the valued customers, the customers must be charged the lowest price.

What should you configure?

A. affiliation price groups

B. channel price groups

C. catalog price groups

D. customer multiline discount price group

Correct Answer: A

QUESTION 2

A company has recently deployed Microsoft Dynamics 365 Finance. You have been hired as a Functional Consultant. Your role will include the management of the Dynamics 365 Finance system and to provide training for members of the

Accounts team.

You are providing training on the cost accounting module in the Dynamics 365 Finance system.

Which of the following are examples of cost behavior?

A. Primary, secondary

B. By elements, by traceability

C. Products, projects, departments

D. Fixed, variable, semi-variable

Correct Answer: D

QUESTION 3

You need to configure a solution to optimize the entry of customer reviews for the different review lengths. What should you do?

A. Configure the maximum length of all reviews on the e-commerce site at the site level

B. Create a text attribute for each review length and assign them to the product category attributes for the Commerce product hierarchy

C. Create a text attribute for the maximum review length. Assign the attribute to each item where a review is requested

D. Configure the maximum length of the reviews on the e-commerce site at the product level

E. Create a reference attribute for each review length and assign them to each item where a review is required

Correct Answer: A
