## QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is planning a One Version strategy for its Dynamics 365 Finance implementation.

Developers use local, downloaded VHD development environments to develop new functionality. Previous developers had to redo some modifications because customizations were created on outdated versions of the software. The One

Version strategy must therefore include steps to ensure that developers are developing against the latest updates.

You need to include an update strategy for the development environments.

Solution: Download and provision new VHD development environments for developers for all Dynamics 365 Finance major releases.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

Correct Solution: Update the VHD development environment with the preview availability version for each Dynamics 365 Finance major and minor release.

A recent and significant step in the One Version journey has been to introduce what are known as Proactive Quality Updates (PQUs): these occur monthly and are automatically applied to all of the applications in the portfolio of D365.

A key thing to take into account is that these updates are mandatory ?customers are automatically enrolled and cannot postpone or reject them. Customers can, however, choose to test functionality a week ahead of the update in a sandbox

environment.

Note: The One Version mission was introduced by Microsoft with the aim of ensuring that their customers are operating on the latest version of their Dynamics 365 applications, including Finance, Sales and Business Central. This helps create

a better user experience, with fewer compatibility issues and greater overall quality.

Being on the latest version means customers always use the most up-to-date security patches and features, helping to protect against cybersecurity threats and data breaches.

---

## QUESTION 2

**DRAG DROP**

A company uses Dynamics 365 Finance.

The company receives a large number of accounts payable invoices on a regular basis that are currently being entered manually.

You need to research ways accounts payable invoices can be created automatically.

What should you recommend? To answer, drag the appropriate solutions to the correct scenarios. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

**Answer Area**

Solutions	Scenario	Solution
Vendor invoice automation	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	
Optical character recognition (OCR)	Technology that converts contained images into text format.	
EDI 810	Electronic format to send invoices.	
Vendor collaboration	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	

Correct Answer:

**Answer Area**

Solutions	Scenario	Solution
	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	Vendor invoice automation
	Technology that converts contained images into text format.	Optical character recognition (OCR)
	Electronic format to send invoices.	EDI 810
	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	Vendor collaboration

**QUESTION 3****DRAG DROP**

A professional services company plans to implement Dynamics 365 Finance.

You need to recommend a licensing strategy for the following users:

User	Comments
User1	User1 is an accounting manager who reviews invoices and payments. User1 is also the cost accounting manager for the company.
User2	User2 manages accounts payable and accounts receivable.

What should you recommend? To answer, drag the appropriate licenses to the correct users. Each license may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Select and Place:

**Licenses**

Base only

Attach only

Team member only

Base and Attach

User	License
User1	<input type="text"/>
User2	<input type="text"/>

Correct Answer:

## Licenses

<input type="text"/>	<input type="text" value="Attach only"/>
<input type="text" value="Team member only"/>	<input type="text"/>

### User

### License

User1

User2

Box 1: Base only

Box 2: Base and Attach Base licenses and cost savings opportunities for "attach" licenses Microsoft provides a cost-effective way for a single Dynamics 365 user to obtain full user licensing for multiple products. Licenses for products that provide core business functionality qualify as base licenses. (See the table below.) Each has one or more additional applications that are frequently used by people in the same roles and that qualify as attach licenses for that user. (These are sometimes referred to as subsequent qualifying applications.) To take advantage of the special attach license pricing:

1.

Buy the first base user license at standard pricing.

2.

Review which attach licenses are available for that base. (See the qualifying products for each base license below.)

3.

Buy attach licenses for the same user at an attach license price. You may buy as many attach licenses as are available for that base license. Every full user must have a base license, though the base licenses don't need to be for the same product. (For instance, an attach license for Customer Service Professional is available both for a user with a Finance base and another with a Commerce base.)

Base applications and their qualifying products for attach licensing

Dynamics 365 base licenses per user	Dynamics 365 attach licenses per user <sup>1</sup>									
	Commerce	CS Ent	CS Pro	Field Svc	Finance	HR	Proj Oper.	RA	Sales Ent	Sales Pro
Business Central Essentials			•							•

**QUESTION 4**

Note: This question is part of a series of questions that present the same scenario. Each Question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate departments to manage functional areas.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

## QUESTION 5

### HOTSPOT

A company is implementing Dynamics 365 Supply Chain Management. The company is enrolled in the FastTrack program.

A project manager who is building a project plan needs to know which workshops discuss specific topics.

You need to identify the workshops in which each topic discussed.

Which workshop is used for each topic? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Topic	Workshop
Business process	<div><div></div><div>Go-live Readiness</div><div>Implementation</div><div>Solution Blueprint Review</div></div>
Integration	<div><div></div><div>Go-live Readiness</div><div>Solution Blueprint Review</div></div>
Cutover	<div><div></div><div>Go-live Readiness</div><div>Implementation</div><div>Solution Blueprint Review</div></div>

Correct Answer:

Topic	Workshop
Business process	<div><div></div><div>Go-live Readiness</div><div>Implementation</div><div>Solution Blueprint Review</div></div>
Integration	<div><div></div><div>Go-live Readiness</div><div>Solution Blueprint Review</div></div>
Cutover	<div><div></div><div>Go-live Readiness</div><div>Implementation</div><div>Solution Blueprint Review</div></div>

#### Box 1: Solution Blueprint Review

A Solution Blueprint Review workshop serves as the starting point of Success by Design. The Solution Blueprint Review workshop covers the following topics:

Program strategy

Application strategy

Data strategy

Integration strategy

Test strategy

\*-> Business process strategy

Security strategy

Application lifecycle management strategy

Environment and capacity strategy

Intelligence strategy

Box 2: Go-live Readiness

The Go-live Readiness workshop is designed to help guarantee a successful go-live for Dynamics 365 projects.

Here are some of the topics the workshop is likely to cover:

Confirmation of the go-live date and scope

Solution acceptance and user training

Performance

\*-> Integrations

Code management

Configuration management

Review of blocking issues

Cutover plan and final data migration

Risk and mitigation review

Customer go/no-go criteria

Support process and hyper-care plan

Box 3: Implementation

Cutover is part of Implementation.

Note: Cutover strategy

Ensure that the cutover strategy provides a good approach and plan to deliver a well-defined, well-tested, reliable, and safe transition from current systems to the new production systems.

Agenda topics:

Cutover vision and strategy

Cutover project plan

Go-live cutover plan

Post go-live plan

Mandatory attendees are cutover lead, solution architect, data migration lead, and project manager roles. Recommended attendees include stakeholders from the customer and partner teams.
