Following Questions and Answers are all new published by Microsoft Official Exam Center
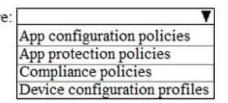

**QUESTION 1**

HOTSPOT

You have three devices enrolled in Microsoft Intune as shown in the following table.

To modify which users are affected by WIP, configure: ▼

| The Azure AD app registration |
| The Azure AD device settings |
| The MAM User scope |
| The mobile device management (MDM) authority |

To modify which applications are affected by WIP, configure: ▼

| App configuration policies |
| App protection policies |
| Compliance policies |
| Device configuration profiles |

The device compliance policies in Intune are configured as shown in the following table.

To modify which users are affected by WIP, configure: ▼

| The Azure AD app registration |
| The Azure AD device settings |
| **The MAM User scope** |
| The mobile device management (MDM) authority |

To modify which applications are affected by WIP, configure: ▼

| App configuration policies |
| **App protection policies** |
| Compliance policies |
| Device configuration profiles |

The device compliance policies have the assignments shown in the following table.

| Name | Platform | BitLocker Drive Encryption (BitLocker) | Member of |
|------|----------|----------------------------------------|-----------|
| Device1 | Windows 10 | Disabled | Group3 |
| Device2 | Windows 10 | Disabled | Group2, Group3 |
| Device3 | Windows 10 | Disabled | Group2 |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

| Name    | Platform            | Require BitLocker | Assigned |
|---------|---------------------|-------------------|----------|
| Policy1 | Windows 10 and later | Require           | Yes      |
| Policy2 | Windows 10 and later | Not configured    | Yes      |
| Policy3 | Windows 10 and later | Require           | No       |

Correct Answer:

| Name    | Assigned to |
|---------|-------------|
| Policy2 | Group2      |
| Policy3 | Group3      |

**QUESTION 2**

Your company has an on-premises Active Directory domain that includes 50 Windows 10 devices. Your company also has an Azure subscription.

You have been tasked with monitoring System log events from the devices centrally. You have added and configured an Azure Log Analytics workspace in Azure.

Which of the following actions should you take on the devices?

A. Enroll the devices in Intune.

B. Create an event subscription.

C. Install the Microsoft Monitoring Agent.

D. Enroll in Microsoft Endpoint Manager.

Correct Answer: C

Topic 2, Implement Microsoft 365 security and threat management

**QUESTION 3**

Note: The question is included in a number of questions that depicts the identical set-up. However, every question has a distinctive result. Establish if the solution satisfies the requirements.

Your company has a Microsoft 365 subscription.

You have been tasked with making sure that managed iOS devices are prevented from copying and pasting company data from Microsoft Word documents to other apps.

Solution: You create a conditional access policy.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

**QUESTION 4**

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You create a Microsoft Defender for Identity instance named Contoso.

The tenant contains the users shown in the following table.

| Name | Member of group | Azure AD role |
|------|-----------------|---------------|
| User1 | Defender for Identity Contoso Administrators | None |
| User2 | Defender for Identity Contoso Users | None |
| User3 | None | Security administrator |
| User4 | Defender for Identity Contoso Users | Global administrator |

You need to modify the configuration of the Defender for Identity sensors.

Solution: You instruct User4 to modify the Defender for Identity sensor configuration.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

Only Azure ATP administrators can modify the sensors.

Any global administrator or security administrator on the tenant\\'s Azure Active Directory is automatically an Azure ATP administrator.

**QUESTION 5**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint sharing policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified in the future.

Solution: From the SharePoint site, you create an alert.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B
