**QUESTION 1**

Your network contains an Active Directory domain named fabrikam.com.

You have a Microsoft Exchange Server 2019 organization that contains two Mailbox servers in a database availability group (DAG).

You plan to implement a hybrid deployment by using the Exchange Modern Hybrid connection option.

Which three configurations will be transferred automatically from the on-premises organizations to Exchange Online? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. the device access rules
- B. the address lists
- C. the address book policies (ABPs)
- D. the Messaging Records Management (MRM) settings
- E. the mail flow rules

Correct Answer: ABE

QUESTION 2

You have a Microsoft Exchange Server 2019 organization.

You need to provide a user named User1 with the ability to create and manage transport rules.

To which management role group should you add User1?

- A. Compliance Management
- B. Server Management
- C. Records Management
- D. Hygiene Management

Correct Answer: C

QUESTION 3

HOTSPOT

You have a Microsoft Exchange Server 2019 hybrid deployment.

You use Advanced Threat Protection (ATP).

You have safe attachment policies configured as shown in the following table.

Name	Action	Action	Enable redirect
Policy1	Dynamic Delivery	Enabled	Enabled
Policy2	Block	Enabled	Disabled

You have the users shown in the following table.

Name	Location	Safe attachments policy
User1	On-premises	Policy1
User2	Exchange Online	Policy2
User3	Exchange Online	None
User4	Exchange Online	Policy1

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

Statements	Yes	No
If User1 receives an email message that contains an attachment, the message will be delivered immediately with a placeholder file. The attachment will be reattached if no malware is detected.	<input type="radio"/>	<input type="radio"/>
If User2 receives an email message that has detected malware, the message will be placed in quarantine.	<input type="radio"/>	<input type="radio"/>
If User4 receives an email message that contains an attachment, and then forwards the message to User3 before attachment scanning is complete. User3 will receive the attachment after initial attachment scanning is complete.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statements	Yes	No
If User1 receives an email message that contains an attachment, the message will be delivered immediately with a placeholder file. The attachment will be reattached if no malware is detected.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
If User2 receives an email message that has detected malware, the message will be placed in quarantine.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
If User4 receives an email message that contains an attachment, and then forwards the message to User3 before attachment scanning is complete. User3 will receive the attachment after initial attachment scanning is complete.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

QUESTION 4

DRAG DROP

You have a Microsoft Exchange Server 2019 organization.

Two Edge Transport servers provide email hygiene.

You configure anti-spam filters to redirect email messages identified as spam to a quarantine mailbox.

You open the quarantine mailbox in Microsoft Outlook 2019 and discover that the from field of all quarantined messages shows the postmaster address.

You need to ensure that the quarantined messages can be sorted by using the original sender address.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Create a new Outlook form in Notepad.

Edit the view in Outlook to include the required columns

Install a form in Outlook.

Run the Set-ContentFilterConfig cmdlet and specify the -OutlookEmailPostmarkValidationEnabled parameter.

Edit the IPM.Note form in Outlook.

Answer Area

Empty answer boxes for the first question.

Correct Answer:

Actions

Run the Set-ContentFilterConfig cmdlet and specify the -OutlookEmailPostmarkValidationEnabled parameter.

Edit the IPM.Note form in Outlook.

Answer Area

Correct answer boxes: Create a new Outlook form in Notepad., Install a form in Outlook., Edit the view in Outlook to include the required columns

Create a new Outlook form in Notepad.

Install a form in Outlook.

Edit the view in Outlook to include the required columns

QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

Several users in the finance department of the company recently accessed unsafe websites by clicking on links in email messages.

Users in the marketing department of the company report that they must be able to access all the links embedded in email messages.

You need to reduce the likelihood of the finance department users accessing unsafe websites. The solution must affect only the finance department users.

Solution: You modify the default safe links policy.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B
