### QUESTION 2

Your company has a Microsoft subscription.

The Microsoft 365 tenant uses a domain named contoso.com.

You need to ensure that team channels can receive email only from users in the company and email addresses that use an email domain named @fabrikam.com.

What should you modify?

A. the External collaboration settings in the Azure Active Directory admin center

- B. the list of accepted domains in Microsoft Exchange Online
- C. the org-wide Teams settings
- D. the global teams policy

Correct Answer: C

1.

Via Teams Admin Center --> Teams settings --> Email integration --> Users can send emails to a channel email address: ON and Accept channel email from these SMTP domains: fabrikam.com.

2.

Via Teams Client: "To limit who can send email to your channel, go to the channel name, select More options More options button > Get email address, and then select the advanced settings link. From there, you can manage who's able to access the email address for that channel. You can restrict the audience to include only team members who own that channel, or narrow your audience to specific domains. You can also remove your current email address entirely."
